Spring Clean for Charity

What do you keep just in case? Is it a little black dress you may fit in the future, is it those bits of wood in the shed which are sure to come in handy someday, or is it an old laptop which has sat in the bottom of the cupboard unwanted and unused.

Computers 4 Africa would like to help you find a new purpose for any IT equipment that may be taking up space in your home. Jump into spring with a cleaner home and that good feeling you get when you have done something to make someone else's life better.

Computers 4 Africa is a Microsoft Registered Refurbisher that can clean up, data wipe and send your old computer to schools and projects across Africa. Your 'just in case bits' can really make a difference in someone's life.

We'll be in your area soon:

Location: Former PC World, Unit 9, Merry Hill Shopping Park, Brierley Hill, Dudley, DY5 1SY

Date: Tuesday 21st and Wednesday 22nd May

Time: 9am – 5pm

Notes to Editor:

- Computers 4 Africa is a Microsoft Registered Refurbisher
- Microsoft recently honoured Computers 4 Africa as a winner in the Microsoft Registered Refurbisher Video Competition
- More images are available please contact us
