

Date Sensitive

Giving to Charity – and it won't cost a penny!

We know its holiday time and **everything** costs money; children are home from school, new school uniform needs to be bought and pay for!

Computers 4 Africa don't want your money!

Computers 4 Africa (a Microsoft Registered Refurbisher) would like to help you find a new purpose for any redundant IT equipment that may be taking up space in your home, office or school. Once the equipment is securely data wiped and refurbished it will be sent to transform communities across Africa. This gives greater opportunities for training and career choices with salaries 3 x higher than the national average. You will know that by giving Computers 4 Africa your old IT you have done something to make someone else's life better.

We'll be in your area soon:

Notes to Editor:

- Computers 4 Africa is a Microsoft Registered Refurbisher.

- Microsoft recently honoured Computers 4 Africa as a winner in the Microsoft Registered Refurbisher Video Competition.
- Computers 4 Africa transforms communities across Africa by accepting working redundant IT equipment from individuals, corporates & organisations in the U.K; once securely data wiped, the computers are then ship out to schools & community projects in Africa.
- More images are available please contact us.
