Tanzania*

Reuse....Recycle.... isn't it just the same?

We all know recycling is a responsible thing to do, but is it always the best thing to do?

Computers 4 Africa challenges the community of **Sheffield** to become proactive in **Reuse** and **Repurposing**, this can be done simply by bringing unwanted working IT equipment to a local Computers 4 Africa Donation Appeal near you – see details below. Once the equipment is refurbished and the memory devices securely data wiped, all useable donations are shipped to schools and community projects across Africa.

Join communities across the UK by thinking **Reuse rather than Recycle** and Change a Child's Life When You Change Your PC; this has enabled 123,750 students in Africa the chance to use computers for the first time in during the last 12 months.

Time:

Notes to Editor:

Computers 4 Africa transforms communities across Africa, by accepting working redundant PC's and IT equipment from individuals, corporates and organisations in the U.K; once securely data wiped, the computers are then ship out to schools, colleges, libraries, clinics and specific projects in Africa.
