

## Date Sensitive

### **Pupils in under privilege areas have something to say about global issues**

The BBC is receiving messages from pupils all over the globe. These pupils have been given the platform from BBC World Class to voice their opinion about current issues. Whether environmental, economical, controversial, or acts of violence, these pupils have a desire to have their voices heard. It is easy to see that most of the pupils are crying out for the same things; peace, unity, and end to poverty, etc. However, many pupils may never have the opportunity to have their say without access to a computer. Charities like Computers 4 Africa endeavour to help pupils who live in under privileged areas to make their voices heard, by enabling these children to get an education in IT and the skills they need to lift themselves out of poverty.

Communities across the UK are encouraged to bring their unwanted IT equipment to a local Computers 4 Africa Donation Appeal near you. Computers 4 Africa will be in your area soon. Details are below:

**Location:**

**Date:**

**Time:**

*The first ever IT classroom at Rugwamba School for Girls, Tanzania*

**Notes to Editor:**

Computers 4 Africa transforms communities across Africa, by accepting working redundant PC's and IT equipment from individuals, corporates and organisations in the U.K; once securely data wiped, the computers are then ship out to schools, colleges, libraries, clinics and specific projects in Africa.
